STATE ROUTE 38 (SR 38) PAVING PROJECT UPDATE

SAN BERNARDINO- Caltrans and All American Asphalt continue the \$10 million pavement rehabilitation project on SR 38 between Forest Falls and Greenway Drive in the San Bernardino Mountains. The project began in May 2014 and is expected to be complete by the end of this year.

As the project nears completion some of the work to be completed is guardrail installation, grind and pave, striping, recessed markers, and a rumble strip.

The work schedule is Monday through Friday from 8:00 a.m. to 5:00 p.m. with one-way traffic control. The contractor will also work some Saturdays during the same hours with traffic control. Motorists should anticipate minor delays and add up to 30 minutes for your trip.

The rolled asphalt requires a “rest period” of up to two hours. There will be no access across the asphalt during the rest period. Driveways will be affected by this project. Residents and business owners are asked to plan ahead for relocation of your vehicles. Crews will be working in one and a half mile segments. Paving operations and guardrail installation may be delayed if affected by weather.
